DENTAL COLUMBIAN

**End of the
Eighties**

DEDICATIONS

DR. STANISLAW H. BRZUSTOWICZ

"THIS CLASS WILL BEGIN AT 8:00 A.M. EVERY MONDAY MORNING. I WILL BE HERE ON TIME AND I EXPECT THE SAME OF YOU." With these fateful words, Dr. B, as he is affectionately known to his students, introduced us to the world of Operative Dentistry.

True to his word, he was there every Monday with a smile and a helping hand. He saw us through numerous pulped out and overextended green teeth and made our first brush with clinical dentistry an interesting learning experience.

It's due to Dr. B that we managed to tackle those first patients with some semblance of confidence. Dr. BRZUSTOWICZ retired last year, his patients will miss him sorely and so will we.

Our thanks for all your help.

DR. DANTE TORRESE

Dr. Torrese brings flair into the prosthetics department not only with his well known mustache but also with his exuberant personality. He can be found on the clinic floor every Tuesday and Friday like clockwork. Always patient and always willing to lend a hand, he is one of the most sought after instructors on the floor. When asked how to prep a tooth for a crown, Dr. Torrese would reply, with a twinkle in his eyes, "Ah, elementary!!"

Thank you for your dedication and guidance which has made our senior year a more productive and enjoyable learning experience.

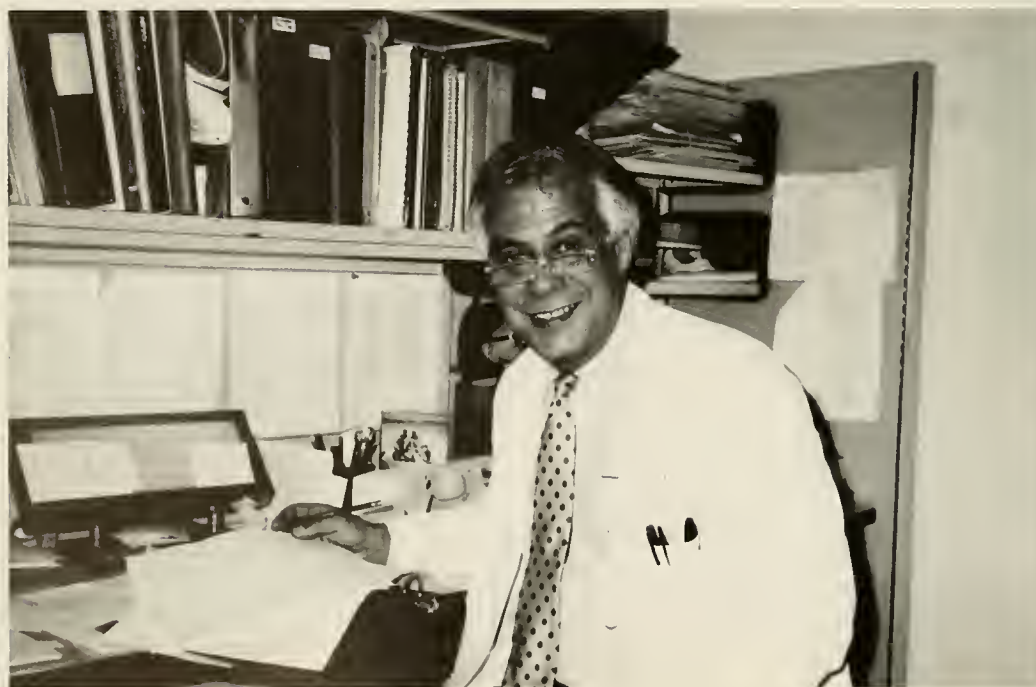

Dr. RICHARD LICHTENTHAI

With summer session I, came the rather intimidating task of dealing with real patients (no more green teeth!), rubber dams and cavity preps that looked nothing like the ideal G.V. Black prep. Thankfully Dr. Lichtenthai was there, to help us through with infinite patience, he walked us through minor crisis and major goofups, never once losing his cheerful attitude.

Dr. Lichtenthai is also on the clinic floor during Junior and Senior years keeping an eye on the students and keeping track of the practical.

The class of 1989 would like to extend their thanks to Dr. Lichtenthai for being an excellent teacher and friend.

IN MEMORY OF BRIAN CRIST

Brian Crist, born in Goshen on July 18, 1962, graduated from Goshen Central High School in 1980 and from the University of Rochester in 1985. An honor student, he also was quite active in basketball, tennis and wrestling teams. Freshman year, as we came together from so many different places to make up the class of 1989, Brian brought with him, his warmth, great sense of humor and willingness to help. We, the class of 89, cherish the moments shared and know that he will always be in our hearts; for we will always remember our colleague, our friend Brian.

Columbia University School of Dental Medicine | New York, N.Y. 10032

630 West 168th Street

January 7, 1989

Dear Class of 1989:

I have a great deal of pleasure in writing to you. The past four years and first deserve to have my congratulations. The Class of 1989 has taken their education very seriously and achieved an excellent record. You did that by not only your studies but by also being concerned with many other things. The thoughts of many of you on strengthening the dental profession, for example, will assist those who follow you.

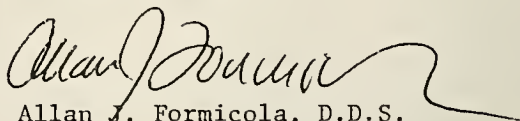

As you enter the profession of dentistry do not lose the concerns you displayed during your time at Columbia. While at many times you may feel "the pressure" to change, you will find that the best progress in the profession comes from within and that the enlightened establishment understands that principle. As graduates, you go forth into the profession with an individual education that you share that education for the betterment of the individual patient with great and with the broader community.

Now on to the future. The additional year of general practice residency will give you a chance to put everything to use and success and happiness in that immediate endeavor and beyond. Success in your career comes from an inner self-confidence developed through education and excellent preparation. Columbia has helped you launch your satisfying career and we hope you will use the opportunity well.

As you are involved in the school as alumni as you were as students. In that Columbia will perpetuate its history of excellence in dental education in the distant future.

Best wishes are extended to the Class of 1989,

Sincerely yours,

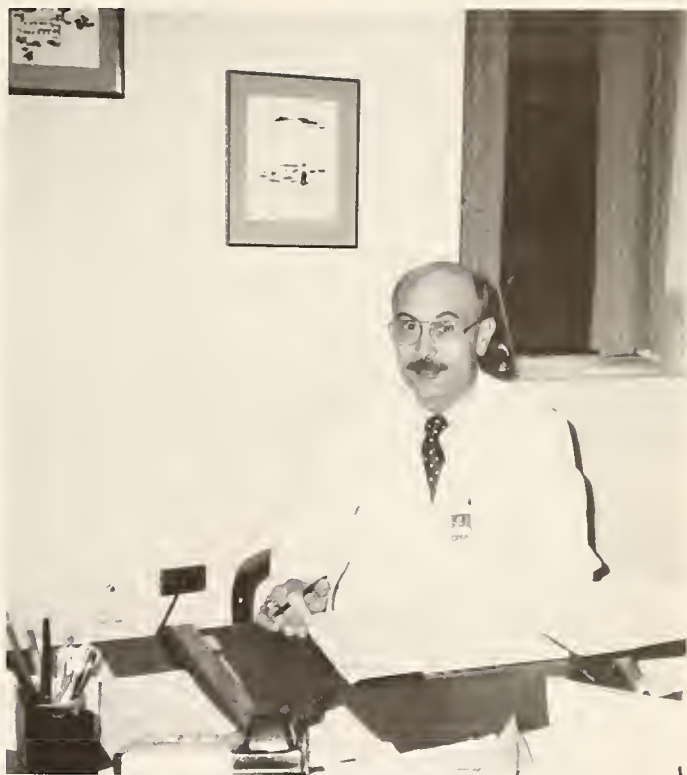

Allan J. Formicola, D.D.S.
Dean

ENDODONTICS

Chairman: Dr. Gunnar Hasselgren

Dr. Syngcuk Kim

After graduation most of you will go to a residency program and later start in private practice. During the practice building phase, you will encounter lots of endodontic treatments. Put your best foot and file forward and remember that this is an important part of your practice building. Also remember, that later things will calm down and the endodontics part of your practice will not be so overwhelming. Also remember, that endodontics handled the right way is fun and rewarding. We in the Endodontics Department wish you a bright future.

Dr. Gunnar Hasselgren

Drs. Murray Cantor and Jeffrey Senzer

Dr. Charles Solomon

Dr. Cory Calev

Dr. Priscilla Konecky

Dr. Jack Levi

Dr. Joshua Most

OPERATIVE DENTISTRY

One of the main reasons for the prestige of American Restorative Dentistry in the middle decades of the twentieth century was its pursuit of excellence using long lasting and proven materials such as amalgam and gold in the restoration of teeth. Operative Dentistry was taught with enthusiasm, conviction and an aim toward perfection. The principles and values of G.V. Black were held in high esteem and resulted in restorative dentistry that has come close to lasting a patient's lifetime.

What is happening to the image of restorative dentistry in the eighties is largely due to economic pressures and a public awareness that our standards are falling, and consequently the public's confidence in dentistry has been shaken. To correct this image, we will have to deliver high quality, long lasting restorative dentistry at fair fees.

This is a great challenge for you since a great deal of poor dentistry today is being done in the name of cosmetics, and many teeth are being sacrificed at its altar.

bines reduce enamel and dentin in seconds as if they were subjected to a pencil sharpener. Laboratories have a bonanza in the metal ceramic restoration to the detriment of the more conservative gold inlay and gold crown which demand more skill, patience, and self-discipline on the part of the operator.

Enamel is still our finest restorative material, and who has preserved it more than the Operative Dentist through conservative micro preparation of teeth using magnification and rubber dam.

Your challenge will be to earn the confidence and respect of patients, to render restorative dentistry services that will last a long time, and to serve our profession with dignity and high ethical standards.

All the teachers of Operative Dentistry welcome you to our great profession, and wish you success and happiness in dentistry.

Endodontics have never been busier as wreckless tur-

ORAL AND MAXILLOFACIAL SURGERY

The faculty and Staff of the Division of Oral and Maxillofacial Surgery are delighted to have been part of the educational process that has resulted in the matriculation of the Class of 1989.

We collectively wish each of the graduating class good luck and success for the future and are proud to welcome the class into the profession as colleagues.

We hope that the flame of learning kindled during the last four years will continue to burn brightly within each member of the class and serve as the fuel to propel each of you to the pinnacle of success in whatever you choose to do in dentistry.

ORTHODONTICS

It is the responsibility of every dentist to have knowledge in diagnostic and treatment procedures which will enable him or her to recognize, classify, differentiate, and assess malocclusions accurately. It has been the objective of your courses in orthodontics to provide such knowledge. It is our hope that the courses have given you a high level of awareness of the necessity for consulting with specialty colleagues as a means of coordinating total dental health care.

The faculty is confident that the judgment, knowledge, and skills you have gained in orthodontic diagnosis and therapy will always be used in the best interest of your patients. We all wish you the very best in your future careers!!!

PEDIATRIC DENTISTRY

Congratulations from the staff of Pediatric Dentistry. It was a challenging four years, but your hard efforts have now come to fruition. We, in Pediatric Dentistry, wish you the best and hope that you include the child in your practice, be it the general practice of dentistry or one of the specialties. We hope that you will continue to remain a "student" and a true professional. It is most difficult to remain current in all the areas of our profession during these times. Through our journals, continuing education, and personal dedication, you will be able to practice the level of oral health care you have strived to learn.

In the coming years, Pediatric Dentistry will continue to focus on prevention, growth and development guidance, and caring for the child with medical and physically compromising conditions. You have the ability and the judgment to provide basic care to these children. For your child patients you can be the introduction to a higher quality of life through a positive experience in dentistry. You have our best wishes for success and an exciting career in the profession.

PERIODONTICS

Periodontics continues to evolve as a dynamic specialty of dentistry. Basic research in periodontics is focusing on identification of the microorganisms in the subgingival plaque, the relationship of the host immune and inflammatory responses to periodontal tissue destruction, and the cell biology of the periodontium. These advances have either realized or suggested exciting clinical advances that will improve the quality of patient care. For Example, diagnostic advances will allow identification of patients at risk for development of active periodontal disease, new antimicrobial and antibiotic therapies are being evaluated as important adjuncts in therapy, new drug delivery systems will offer the opportunity to deliver high concentrations of agents directly to the site of the lesion and surgical procedures are being introduced to not only halt disease progression, but to promote the regeneration of lost tissue. These changes promise to make the practice more analytical, and ultimately more fulfilling. As these advances are accompanied by an "information explosion", new graduates must critically evaluate information as it is reported in both professional journals and the lay press. By so doing, we can be assured that we are providing therapy that is tailored to the needs of our patients.

PROSTHODONTICS

The role of the Class of 1989 for the next decade will be much more significant than the classes in the past. The Class of '89 will be facing a society that is more concerned and knowledgeable about health care in general, and what the expectations of the health care providers should be doing for them.

Your class will be confronted with clients asking for a second opinion. Dentistry is no longer a stepchild to medicine, it is an intricate part of it. Your class will be treating people who are living longer. From the very inception, the heart of the practicing dental profession has been restorative treatment. The advancements in prosthetic principles, concepts and practices as first described by Pierre Fauchard in the 18th Century were the beginning of modern dental prosthetics. Fauchard's ingenious prostheses along with other pioneers contributed immeasurably to the development of dentistry as a profession. Prosthodontics constitutes by far the largest and most difficult part of dentistry, and thus makes it a distinct branch of the art of medicine and gives to it the power to add to health, comfort, and enjoyment to life.

Many developments resolving from World War II led to significant advances in prosthetic dentistry. Among the most important innovations in the mid-20th Century years, are the high-speed rotary instrumentation for tooth preparation and metal alloys to which porcelain can be directly bonded.

The treatment advances provided by these and other related developments precipitated the full mouth rehabilitation concept which is now widely accepted. Concurrent improvements in local anesthetic agents, fourhanded chairside techniques, articulating devices, impression materials, cements and plastics for provisional restorations were realized. With a broader spectrum of treatment alternatives available, total patient care opportunities have been enhanced.

The biologic physiologic basis for complex clinical prosthetic procedures have been established and has guided the design and fabrication of all types of fixed, removable implants and maxillofacial prostheses. The Class of '89 will be involved in the treatment of the medically compromised patient and also in the treatment of the geriatric patient.

The Class of '89 will see the development of sophisticated techniques, such as, the development of laser technology in which artificial replacements will be computer designed and programmed.

It is our hope that the 1989 Graduates of Columbia will play a significant role in bringing this about. The Faculty of the Division of Prosthodontics would like to congratulate you and extend their sincere best wishes to you in your chosen profession.

STOMATOLOGY

Congratulations to the class of 1989!

You can be justifiably proud of yourselves in receiving a doctorate from Columbia university. As you should realize, academics at Columbia university are very demanding and you had to spend much time and effort to achieve academic success at this institution.

Now, at this point it is important to remember that you should not discard your academic habits. Although this professional plateau has been reached, it is necessary, even mandatory that you continually read and study the appropriated literature and textbooks, in order to forever keep yourselves "current". It is one of your responsibilities to encourage this of you. Your patients will demand this of you.

*Sincerely,
David J. Zegarelli, D.D.S*

DENTAL AUXILIARY UTILIZATION AND PRACTICE MANAGEMENT

SPECIAL DENTAL SERVICES

As the population in need of dental care becomes increasingly older the need for special care becomes apparent. It is hoped through your years spent at Columbia that this knowledge has been obtained.

As students, you have been exposed to a vast variety of patients with a tremendous number of oral health needs. We hope you have experienced those things that will make you the oral health care provider you intend to be. It is with great enthusiasm that you should go into this profession.

We in Hospital Dentistry wish the class of 1989 best wishes and congratulations on their accomplishments.

THE CENTER FOR CLINICAL RESEARCH

The establishment of a center for clinical research in dentistry Columbia University is a response to major changes that have been taking place in the patterns of dental disease and the nature of dental care, in the growing interest of the public in prevention of disease and maintenance of health, and to the opportunities these changes provide for contributing to the future of dentistry.

All students should be familiar with the research process and should develop a critical sense and an ability to evaluate the supporting data for new materials and techniques. The clinical research center can help provide the appropriate attitude and skills.

PREVENTIVE DENTISTRY

The Division of Preventive Dentistry has recently undergone major organizational and educational revisions. In addition to its previous responsibilities in prevention of plaque initiated diseases, specifically, caries and early gingivitis, the division is now monitoring and supervising clinic infection control procedures. Every effort is made to focus on the role of the student/practitioner in maintenance of oral health and prevention of transmission of infectious agents from dentist to patient and vice versa. This new direction and its potential impact on the practice of dentistry has resulted in changes in the didactic portion of the preventive dentistry curriculum. The new didactic program emphasizes acquisition and transmission of infectious diseases of the oral cavity and thus the title of the main lecture series given by the division has been changed from "cariology" to prevention and management of oral infectious diseases.

EDITOR'S NOTE

DUE TO CIRCUMSTANCES BEYOND OUR CONTROL WE WERE OBLIGED TO REPLACE MORE THAN TWO THIRDS OF THIS YEARBOOK AT (LITERALLY) THE LAST MINUTE. WE OFFER OUR HEARTFELT APOLOGIES TO ANYONE WHOSE PICTURE IS NOT INCLUDED OR FOR ANY OTHER INACCURACIES WHICH MIGHT EXIST. I WOULD ALSO LIKE TO THANK MY STAFF FOR A JOB WELL DONE UNDER INCREDIBLE PRESSURE.

J. JALALI

MRS. MELICENT MARRETT

Who could forget that afternoon at the end of second year when we were first introduced to Mrs. Marrett. Many of us sat stunned and speechless as we were being briefed on clinic procedures and policies in preparation for our first patient encounter. Mrs. Marrett strutted as she gave us a detailed description which we were expected to commit to memory then and there, but much to her dismay was forgotten by most. Her famous words that afternoon were, "It is a must, a M-U-S-T, that this manual be followed at all times; a must that a four-part form be completed at all times," etc., etc.

Over the past two years, Mrs. Marrett steadfastly strove to mold us into competent and organized professionals. She quickly shed her stern exterior and many of us came to know her as a warm, caring individual who had the best interest of her student doctors at heart. She treated us with respect.

We have many fond memories of our clinical days, including our 2 p.m. "date" on Thursdays- if you forgot that then you were given a reprieve at 10 a.m. and 2 p.m. daily with an out-guide.

We will never forget you, Mrs. Marrett. With great respect and admiration, we salute you, the Matriarch of the class of '89.

SPECIAL THANKS TO

DR. STEVEN LEPOWSKY

When we entered SDOS in 1985, Dr. Lepowsky was a senior dental student who was involved in virtually every student organization in the school. Those of us who knew him during that year, became familiar with his easy going personality and his willingness to lend a helping hand or offer a word of advice. Additionally, he provided many of us with the now famous "Lepowsky notes" which were used in lieu of transcripts. When he returned to Columbia SDOS as a clinical operative instructor, it was apparent that those qualities remained. He was instrumental in building our confidence in operative clinic during the pivotal junior year. During the senior year, although rarely on the clinic floor, many of us continued to look to him for guidance and instruction. He assisted us in the preparation for our residency interviews and wrote many letters of recommendation.

Dr. Lepowsky, for all your guidance and assistance, we the Class of '89 offer our sincere thanks and appreciation.

DR. LUCIUS BATTLE

Senior year has been greatly enhanced by the presence of Dr. Lucius Battle. His 25+ years in the Army here and abroad, in addition to his experiences at Sloan Kettering, establishes him as an instructor with a wealth of Prosthodontic knowledge. Whether it be explaining the mysteries of RPD design or laboring with us over centric relation, Dr. Battle always treats his students in a patient, considerate, and most importantly in a professional manner. No matter what went wrong on the clinic floor he is always there with a sweet smile, good-natured humor, and clinical expertise. We also knew that if things continue to go wrong Dr. Battle would still be there at the end of a 12 hour workday to "help make things right". We admire and respect him for his boundless energy and dedication. He has a special place in our hearts. Thank you Dr. Battle.

Cheryl Ragonese - Senior Clinic Coordinator

Mrs. Marrett

Alicia Benjamin - Junior Clinic Coordinator

FALL PICNIC '88

Christmas

1988

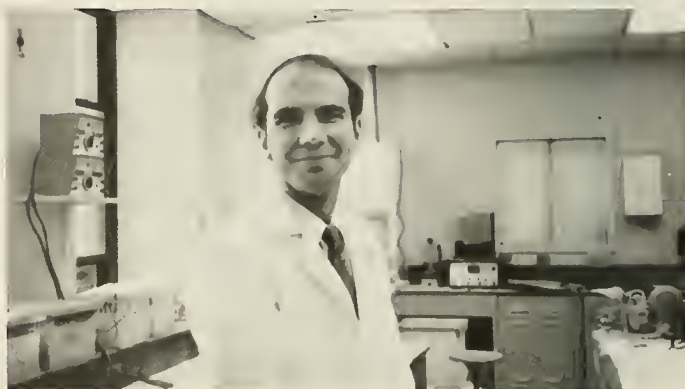

Thanks a million Cheryl.

I saw you with those gloves on, that's not the right code, tooth#, or patient, there's no authorization and get that smile off your face.

Four years and \$68,000 and I haven't a clue.

Just your average, handsome devil.

Two quick breaths and check for signs of arousal.

Gus, you come up with some really good ones.

J: Why are you so happy?

H: Ask my boyfriend!!

O.K. NOW this is something I routinely do with all my senior patients, just see if you can bite this stick before I move it away.

Yes, I'm very happy here at Columbia

Yes, I love all my patients.

"And seventhly ..."

Why am I smiling even when my right hand is caught between two draws — because I'm a good sport.

You like that, don't you.

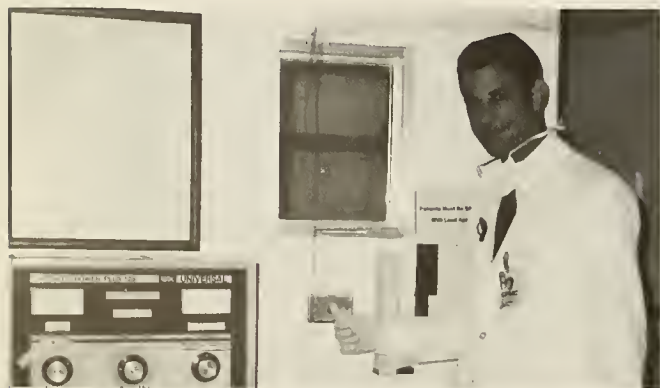

Kid: You can smile your heads off I'm not opening my mouth.

Dr. L., thanks for covering for me, the tanning salon was packed.

The maxillary fork connects to what?

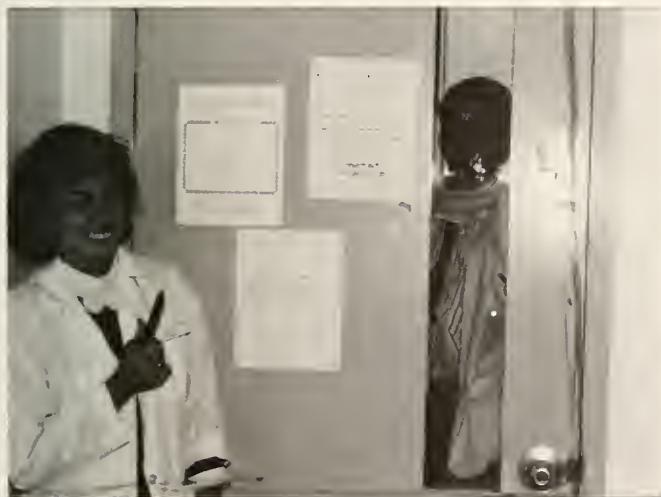

Jay, I'll be right back, could you hold this for a minute.

Mark you're a nice guy but I really don't need extra illumination to remove my gloves.

Just Hanging Out ...

No, Being in Columbia for a hundred years hasn't affected my sanity!

Even retirement never tires him

Larry, Curly, and Moe

So Good, So Fine, So Right

I'll take bachelorette #1

And I just wanted to add that I feel fortunate, honored and yes even graced to be spending my residency with Andrew Schmid.

Yes, but try looking at it from my side, tilted to the left.

And you thought I was having fun with you guys!!!

Time out miss, I think your bib is falling down.

THE GRADUATES

JOHN PAUL ANDREWS, D.D.S.

John came to Columbia with a B.S. from the University of Scranton, where we are led to believe, cows roam and sheep graze next to the lecture halls. Affectionately known as Scranton and OB (one-brow) we teased John mercilessly about his mismatched clothing. His favorite hobbies in Columbia were yelling, shouting and assorted name-calling. He has been our president for the last 3 years and will be remembered for always looking out for the classes' best interests and doing a wonderful job of it.

SCOTT FORD BERNSTEIN, D.D.S.

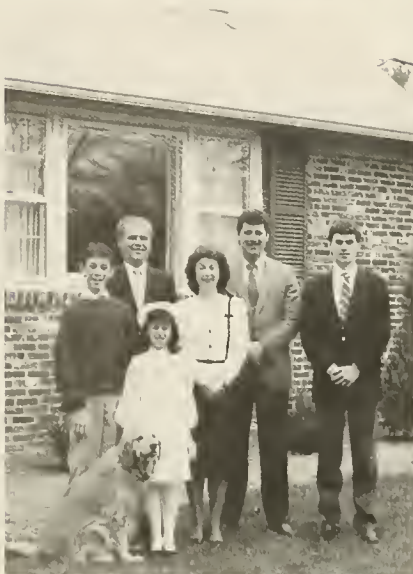

Scott, a.k.a. "Scooter", graduated from NYU with a Bachelor of Science in Biology. Scott was the friendliest and warmest guy in the class. If you needed someone to help you cast an inlay- he was always there.

Scott will best be remembered for his great dancing (remember the Temptations?), his stories that could break your heart, helping Alison move her desk, and giving away his red scarf. He plans on doing a GP Residency followed by private practice ... and then he's buying a new car (with plates that read "Mr. Prostho") ... maybe ...

MATTHEW BRIAN BROWN, D.D.S.

ALISON CHAN, D.D.S.

Alison came to Columbia SDOS from New York University with a B.S. in Biology and East Asian Studies. Her hobbies are volley-ball, tennis, and portrait sketching.

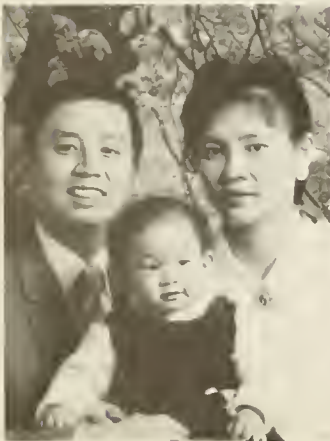

Alison's future plans are General Practice Residency followed by private practice. Her interest in Public Health will lead her to work in a community dental clinic.

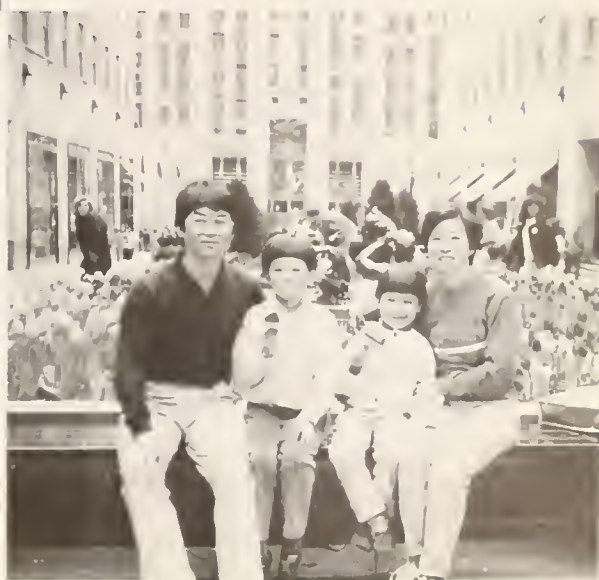

SU-SHAN CHEN, D.D.S.

Su-shan, or Susan, was our very first "mommy". She joined our class during the sophomore year and fitted in wonderfully. Su-Shan has a D.D.S. from the Taipei Medical College in Taiwan, and is married to Eric, who is a second year dental student at Columbia. She also has a little girl, Jennifer. Her plans for the future include private practice, lots of relaxation, and a chance to play her favorite game of tennis.

KYUNG CHIN, D.D.S.

EVELYN CHIU, D.D.S.

STEVEN CHO, D.D.S.

WAI KEUNG CHOW, D.D.S.

Wai Keung Chow received his B.D.S. from Liverpool University Dental School. He was married in February of 1988 to Ada who works as a nutritionist. His hobbies include tennis, scuba diving, driving and traveling.

Daniel plans to do a one year General Practice Residency in New York, set up a practice in midtown Manhattan, and have a baby in 1991.

RICHARD S. CORBIN, D.D.S.

PHIE-BEE DAI, D.D.S.

Phie-Bee, also known as Shorty, is an avid Sherlock Holmes reader. Her other favorite pastimes are crossword puzzles, the search for the best hashbrown/home fries in NYC, and most of all for teasing Lance the cat.

Phie-Bee has one older brother, recently married and a younger sister. She graduated from Columbia University with a B.S. in Chemical Engineering. Her future plans are General Practice Residency and private practice.

FRANK DE PINHO, D.D.S

Frank, alias "The pin" graduated from N.Y.U. with a B.A. in Biology. Born in Angola, Africa, he will always be remembered for trying to sabotage a Prostho practical by starting a fire (not once, but twice) as well as for his "Brady bunch" family. His hobbies are motorcycle riding, soccer and girl watching. An avid sports fan, his dreams include driving in the McLaren-Tag team of the Formula 1 Grand Prix. He plans to do a 1 year residency and then open a practice in a Portuguese community.

INGRID ANTOINETTE DOWRICH, D.D.S., M.P.H.

Ingrid entered dental school after a career as a critical care nurse. She found the transition to be very challenging, yet interesting and very worthwhile. Ingrid has maintained a hectic schedule during dental school, being involved in many extracurricular activities and concurrently pursuing a master's degree in the School of Public Health. In addition, she has a daughter Monet at home to keep her busy. Immediate plans include a year of GPR after a looong vacation.

LOREANE MIRYAM ENGELHARDT

Loreane, a native New Yorker, comes from a large family of eight. She is a twin and has four sisters and one brother (the oldest). Her mom and dad are really caring and wonderful people. Loreane enjoys spending time with her three nieces and two nephews. She also enjoys doing many hobbies such as reading romantic novels, swimming and jogging on Coney Island Boardwalk. She graduated from Brooklyn College in 1984 with a B.S. in Psychology. Loreane plans to do a General Practice Residency in New York. After her GPR, she would like to live and practice in Long Island.

DANIEL FINK, D.D.S.

JAY GOTTESMAN, D.D.S.

JOAN GRCEVIC, D.D.S.

Joan, a.k.a. 'The Jet' and 'Sam'. Joan was born in Ohio and raised in Switzerland and Italy. She received her B.A. from Sarah Lawrence College in Bronxville, NY. She lives in an apartment where she grows plants and listens to jazz. She enjoys horseback riding, traveling and playing the piano and guitar. Joan also has the friendliest most loveable sheepdog (Pollynoel) who keeps her company - beware kisses and paw prints! She will always be remembered as the kindest of friends and the woman with the sexiest phone voice.

ANDRE GROSSER, D.D.S.

EROL GUNDUZ, D.D.S.

Erol, alias "The Beaver" will be remembered for his book bag and preppy attire. While at Columbia, he received the Percy T. Phillips Award. His plans are to continue his studies in Orthodontics, and marry Emabel in the summer of 89. On his spare time he can be found skiing, swimming, boating, dancing and traveling. He wishes all his classmates well in finding their happiness and success in the years to come. Erol graduated from N.Y.U. with a B.A. in Biology.

ALFRED HO, D.D.S.

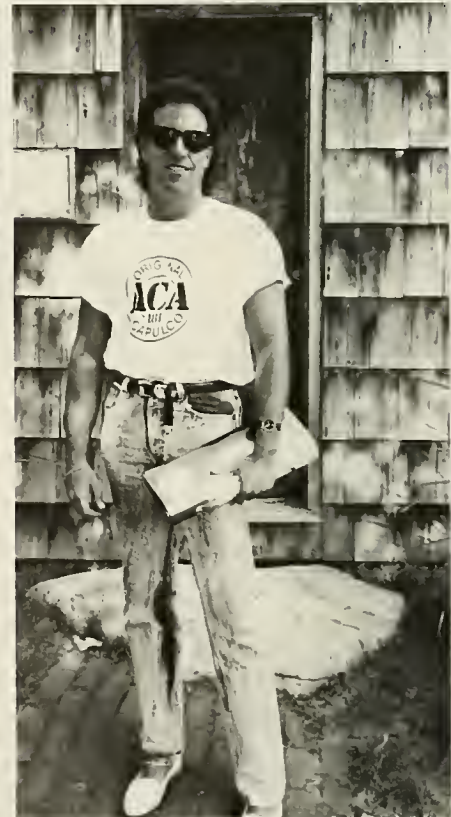

Alfred entered SDOS with a B.S. in Biochemistry from Stony Brook. He will always be remembered as a reliable classmate, whether it was to borrow an instrument or video an ITP project. His most memorable moment was when his eye lids became heavy and he dropped the slide carousel during a pedo lecture. His hobbies are skiing, tennis, squash and back massages. His future plans are to complete a 1 year GPR and possibly specialize.

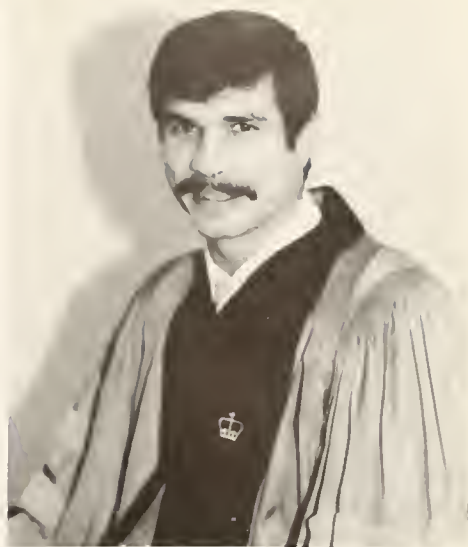

GLENN HOLLOWAY, D.D.S.

Glenn aka "Junior" graduated from SUNY at Albany with a B.S. in Biology. Glenn will be remembered as the captain of the class basketball team as well as for originating those Thursday night at the movies. His hobbies include basketball, chasing women and catching sunrays. His future plans are doing a 1 year GPR and if his finances allow possibly buying the New York Mets sometime in the future.

FRANK IZZO, D.D.S.

Frank aliases "Fizzo" and "Fiz" came to SDOS with an AAS from Rockland Community College, a B.S. in Biology from SUNY and a Respiratory Therapist's degree from Hudson Valley Community College. This future successful farmer says his hobbies include sports, cycling, rock and roll and sex. As a result of the latter, he is married to Sue and has 3 children. Any more Frank? He will best be remembered as "Santa".

HILARY L. JACOBS, D.D.S.

HIL, ALSO KNOWN AS MABEL, CAME TO COLUMBIA WITH A B.A. FROM WESLEYAN UNIVERSITY. DURING THE SENIOR YEAR SHE BECAME ENGAGED TO JEFF AND THEY PLAN TO MARRY IN 1989. HER HOBBIES INCLUDE RUNNING, SINGING AND TALKING(!).

HILARY PLANS TO COMPLETE A ONE YEAR GPR IN MEMPHIS AND THEN SET UP PRIVATE PRACTICE IN THE COUNTRY. SHE WOULD LIKE TO THANK HER PARENTS, HER SISTER AND JEFF FOR ALL THEIR LOVE AND SUPPORT.

JILA JALALI, D.D.S.

JILA, ALSO KNOWN AS J. J. #2 AND JILS, WAS BORN IN LONDON AND GREW UP IN IRAN AND ENGLAND. SHE GRADUATED FROM GEORGE WASHINGTON UNIVERSITY WITH A B.S. IN CHEMISTRY AND SPANISH.

JILA PLANS TO PURSUE A CAREER IN PEDIATRIC DENTISTRY STARTING WITH A TWO YEAR PEDO RESIDENCY IN VIRGINIA. SHE WILL BE REMEMBERED FOR HER FUNKY OUTFITS, ANNUAL CHRISTMAS BASHES AND HAVING HER LAST NAME MISPRONOUNCED BY ONE AND ALL!

TO MY PARENTS: FOR THEIR SELFLESS LOVE AND CONSTANT SUPPORT, FOR THEIR PATIENCE AND FORGIVENESS, WITHOUT YOU NONE OF THIS WOULD BE POSSIBLE. DADDY, YOU'RE ALWAYS #1. I LOVE YOU ALL, ALWAYS.

J, J&J, Inc.

ENGLAND

ME AND MY GIRL

JONATHANE JEON, D.D.S.

John, J.J. #1, was born in Seoul, South Korea. He graduated from the University of Chicago with a B.A. in Biology and his hobbies include tennis, golf and soccer. Jonathane, the original Mr. Calm and collected can become quite wild (and red) after a few beers. He will be remembered for his favorite quote "It will cost you", and for always being on hand to help a friend or put out a fire started by Frank, with his white jacket. His future plans include a 1 year GPR and possibly a speciality in Ortho.

GLEN KAN, D.D.S.

AHMED KHOCHT, D.D.S.

DAVID KUNG, D.D.S.

Born in Taiwan and raised in New York, David "Shean-Guang" Kung received his B.A. from Columbia College. Having strong ties to family and God, David took a one year sabbatical to travel and be in full-time religious training. He spent most of his time in the Far East and Indonesia. His love of the outdoors is reflected in his sports activities-Skiing, horses and motorcycles.

*No mortal tongue can e'er describe
The freedom of the soul,
When passed beyond all earthly bribe
To God's eternal goal.*

TSZ MING LAM, D.D.S.

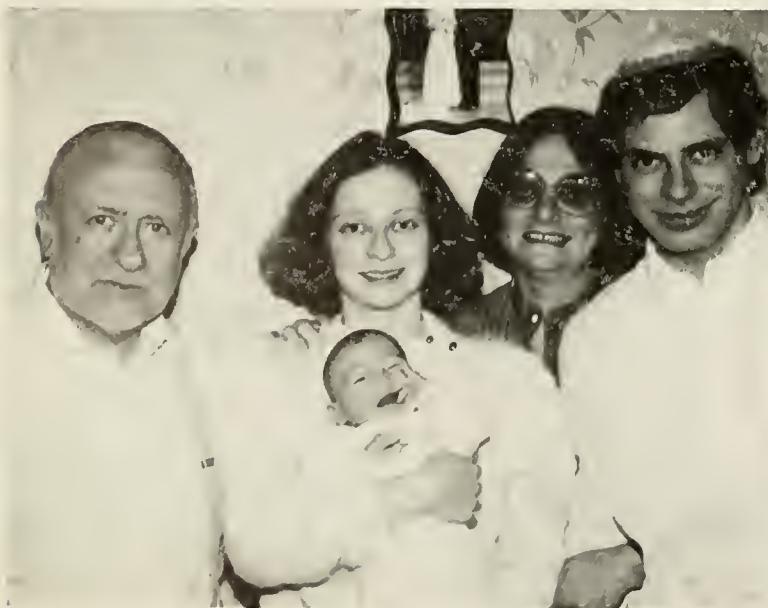

Lam, known to some as Lambo, Lamstein, or Lam Jones, came to Columbia from SUNY at Buffalo with a B.S. in Electrical Engineering a 5'7", single, nice and dependable (all in his own words). He enjoys skiing, sightseeing, reading magazines (he declines to mention which) and traveling. Lam spent his externship at Guy's Hospital in London where he picked up many girls but not an English accent. He plans to open up a dental office, a Chinese restaurant, and enjoy life.

PETER LAMA, D.D.S.

STEVEN LAX, D.D.S.

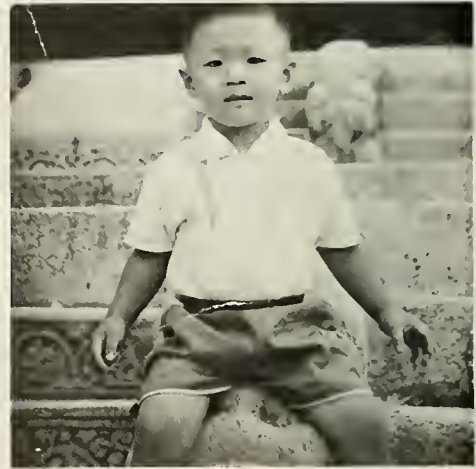

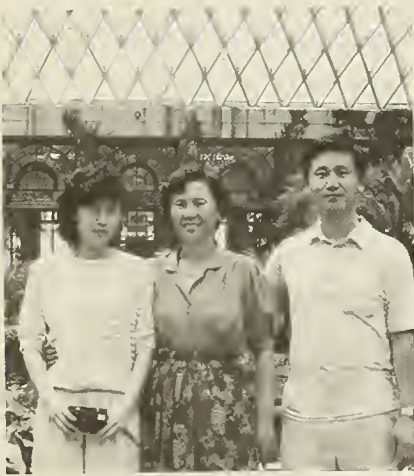

KENNETH LEE, D.D.S.

RICHARD LEE, D.D.S.

Richard Lee, a.k.a. the "Rocket", graduated from Pace University with a B.S. degree. Richard is known as the one who saw patients at lunch time. His favorite hobbies include tennis, hiking, and bicycling. His future plans include doing a one year General Practice Residency and being in private practice in Queens. He also plans to marry in 1990 (God knows whom?) by going back to Korea to find his wife.

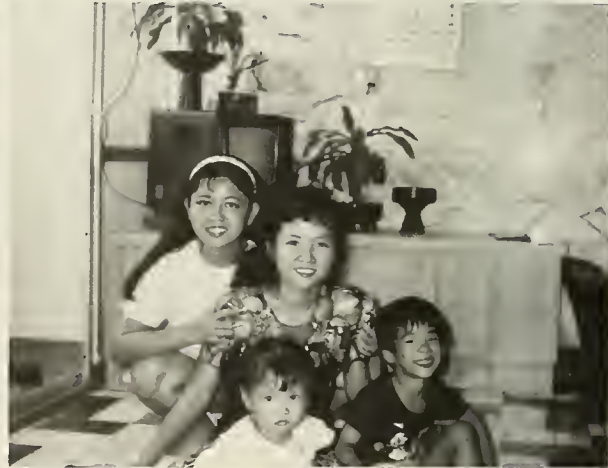

OILIM LEUNG, D.D.S.

Oilim, born in Hong Kong comes from a quite large and happy family. She graduated from Barnard College with a B.S. in Biology. Oilim will always be remembered for borrowing instruments and her favorite quotation was "Why don't you go first". Her hobbies include tennis, reading (God knows what) and yelling. Her future plans are doing a 1 year GPR and then open a private practice in Chinatown.

I-JUN LIN, D.D.S.

I-Jun, better known as "Bonnie", came to Columbia SDOS from the National Yang-Ming Medical College of Taiwan with a degree in Medical Technology. In her spare time she enjoys Chinese knotting (a special native craft), cooking, and aerobics. Bonnie's future plans include postgraduate training, private practice, and getting married to her boyfriend of many years.

MIN TSAI LIU, D.D.S.

Min Tsai Liu, better known as Dr. Mindy, was born in Taiwan and has one older brother. She received her Bachelor of Dental Surgery at the prestigious National Taiwan University. Mindy enjoys movies and computer games. She also keeps busy by taking cases from fellow classmates that occasionally "pulp out". Her future plans include teaching and practicing as an endodontist. Mindy keeps trim on her special diet of egg fried rice and tuna fish.

MARIA E. MARZO, D.D.S.

MITCHELL MEHLMAN, D.D.S.

SANDRA MOLINAS, D.D.S.

Sandi, (alias San), is completing her eighth year with Columbia University after attaining her B.A. in Bio Psych with honors at Barnard. She loved New York so much she decided to stay. Sandi is the youngest of a family of three, she has an older brother and sister. Sandi enjoys working out, reading, and camping trips. She also has had several of her poems published, writing poetry is her secret passion (along with shopping). After completing her studies at Columbia, she hopes to go on to a specialty in Periodontics.

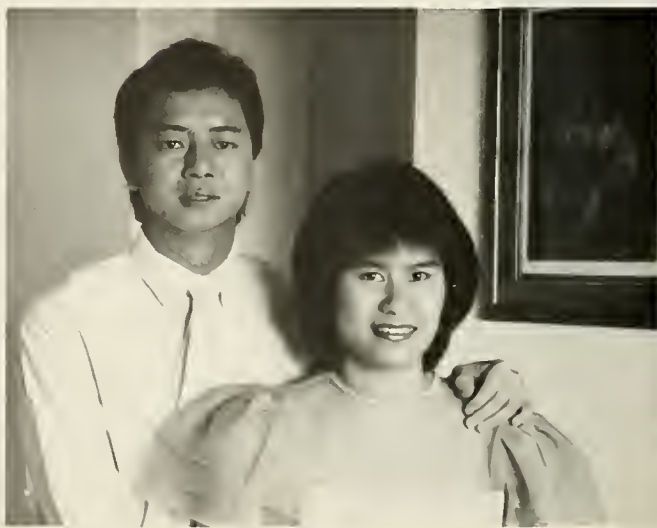

ELIZABETH MORENO, D.D.S.

ANGELIC MUNESSES, D.D.S.

Angelic, known by her friends as Angie, joined our class as an advanced standing student. She is originally from the Philippines but went to college in the United States at Southwestern University. She is married and her most urgent plan for the future is "to get out of New York City as soon as possible."

MOSTAFA OSMAN, D.D.S.

Mostafa Osman, a.k.a. "Most", "The Wizard", graduated from Cairo University with a BchD and spent 2 years in a program at NYU-Institute for Foreign Trained Dentists. His hobbies include rowing and going to Coogans with Daniel, Frank, and Joan- "the regulars". Mostafa plans on going for post-grad training-followed by more training.

KAMINI PATEL, B.D.S. D.D.S.

Kamini, the advanced standing student, came to Columbia with a Dental degree from Bombay University in India. When she gets the opportunity she enjoys watching television, cooking food, and shopping. She is married and her plans after graduation are to enter in a private practice.

MARIA CONCETTA PELTRONE, D.D.S.

*... Fatti Non Foste Per Viver Come Bruti Ma Per Seguir
Virtute E. Conoscenza.*

Ulisse, INFERNO, by Dante Alighieri

The Old

The Young

Bronzes of Riace, V c. B.C.
The Optimum in VDR (Vertical Dimension of Rest)

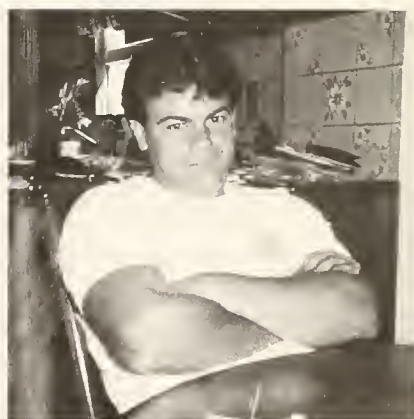

BRIAN POLLARD, D.D.S. M.P.H.

ANTHONY RIPANI, D.D.S.

Anthony, also known as "AYM" (Angry Young Man) was a Biology major at St. John's University. His hobbies are traveling, motorcycling, and skiing. If you see someone on the LI Expressway wearing his Wayfarers with the wind blowing through his brush cut, you'll know it's Tony. His future plans include SLEEPING, being "Uncle Tony", and never spending any money. Squeak, Squeak.

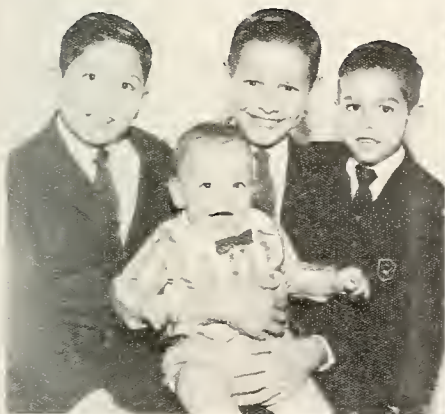

NIURKA RODRIGUEZ PACHECO, D.D.S.

Niurka will always be remembered for her friendly smile and boundless energy. And of course she was never at a loss for words. We all watched as she hugged and kissed her patients by the elevator, meanwhile she was filling up those operative cards faster than anybody. When she was not in the clinic, she was off somewhere travelling with Tony. Niurka received her Bachelor's degree in Chemistry from Arizona State University. After graduation from SDOS, she hopes to continue a career in Pedodontics.

HENRY RUSSO, D.D.S.

Henry aka "Hank" or "Reubens" graduated from N.Y.U. with a B.A. in Biology. Henry will always be remembered as the nicest guy in the class, always calm and at ease. He was the only one in the class who could see a clear clinic demo and besides he might be the first dentist ever to play for the Knicks at power forward. His hobbies include basketball, Shark fishing and camping. He plans to marry Jill in September of 1989, as well as doing a 1 year GPR and possibly specialize in Ortho.

*ANDREW SCHMID, D.D.S.
MPH*

SCOTT SCHWARTZ, D.D.S.

Scott joined our class as an advanced standing student from University of Pennsylvania School of Dental Medicine. Scott plans to specialize his efforts in the field of Orthodontics. He is an avid golfer and his sense of humor is well above par. Scott and Renee will be married on May 27th. He will always be remembered for his famous; "I love when this happens!"

JOLANTA SIKORA, D.D.S.

Jolanta Sikora, better known as "Jola", came to Columbia SDOS from Boston University with a B.A. in Biology. Besides working towards her D.D.S., the past years have been filled with changes - she married her husband Marek during freshman year, and spent senior year carrying their first baby, to be born shortly after graduation. Jola's future career plans include a private practice in Queens, New York.

I
Love You-

Jola

Thanks
for so
much...

SHAHRZAD TAJTARAGHI, D.D.S.

Taj joined our class as an advanced standing student with a D.M.D. degree from the National University of Iran. She is married and her hobbies are music, tennis, and swimming.

ALAN ISAAC TALANSKY, D.D.S.

Alan will be remembered most for making the most of those long lecture hours by reading the torah. Alan graduated from Yeshiva University with a B.A. He kept the instructors on their toes by always wanting to know "Why do I have to do this?" He is married to Naomi and has two children, Yaakov and Adina. He plans to enter private practice after graduation.

ISABEL TAMANAHA - GRUNDY, B.D.S., C.D., D.D.S.

Isabel joined our class as an advanced standing student, has a degree in Dental Science and in Dental Surgery from Lima, Peru. She also has a certificate in Pedodontics from Columbia University. Isabel will be a fellow in an Orthodontic Residency program. She is married and has three sons, Toshiaki 5, Jiogy 3, and Yoshiyuki 18 months.

LILLIAN VIDAL, D.D.S.

LILLIAN RECEIVED HER BACHELOR OF ARTS DEGREE FROM BARNARD COLLEGE IN 1985 IN BIOLOGY. SHE AND HER HUSBAND, GEORGE, WERE MARRIED IN 1981 AND ARE EXPECTING THEIR FIRST BABY IN DEC. 1988. HER PARENTS, LUIS AND NIVIA AMECHAZURRA AND SISTER, LISSETTE, HAVE BEEN VERY SUPPORTIVE THROUGHOUT HER EDUCATIONAL CAREER, FOR WHICH SHE WILL BE FOREVER INDEBTED.

SPECIAL THANKS TO MY PARENTS AND FAMILY FOR THEIR NEVER-ENDING SUPPORT AND ESPECIALLY MY HUSBAND GEORGE, A MAJOR DRIVING FORCE IN MY LIFE, WHOM I LOVE DEARLY.

MARK WASSERMAN, D.D.S.

STEVEN YEE, D.D.S.

Steven Yee, who would like to be known as "Stud Yee" graduated from the University of Rochester with a B.A. in 1985. His favorite hobbies include tennis, piano music and audio electronics. He plans to marry Loni or Ms. X in 1990-91. His future plans include a General Practice Residency and a big house (on the waterfront in Long Island), plus a house maid and two wives if the law permits.

VINCENT ZICCARDI, D.D.S.

I didn't start the fire. Frank did.

Jackie 'O. Rodriguez.

4 wild and crazy guys.

Ingrid, you hold her down. I'll take out the gold!

What vertical dimension!

I see a juicy inlay there ...

Go ahead, make my day.

We don't want patients taller than 4 ft.

Don't touch me. They are looking!

Please, don't look out the window when I am talking to you!

Perfect aim.

Duh? Class? What Class?

I'm hard at work.

A legend in his own mind.

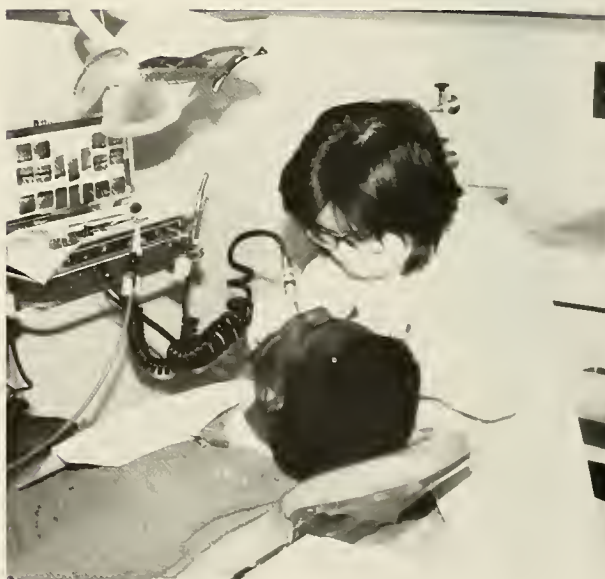

Pedo Instructor, Pedo Patient.

Darling, do you love my legs too?

Hand Over Mouth Technique!

Please open wider, my hand still can't go in.

If you don't tell my wife, I won't.

Dr. Ho, you are not supposed to expose the pulp in extension for prevention.

Dreaming of the perfect gold inlay.

Daycare Dentistry!

SENIOR FAREWELL DINNER DANCE

Oops!!!!

wasserman, get back in there stat.

seeing double?

the post-party shadow

Ladies, are you sure you're not related to me?

perfect fit, don't you think?

The perfect shot!

What's up doc?

Elly: you call that a gold inlay?!!

the can-can girls

Come on, it's only some good old zinroc.

go ahead, make my day.

Elly, pB, i did that 6 units in 30 units minutes.

WOULD YOU TRUST THESE PEOPLE?!!!

I LOVE this job!!

*One more word about PRODUCTI and I'll @#***!!*

Just keep smiling and moving those little fingers

OOPS, caught in the act.

That Scope has got to be spiked.

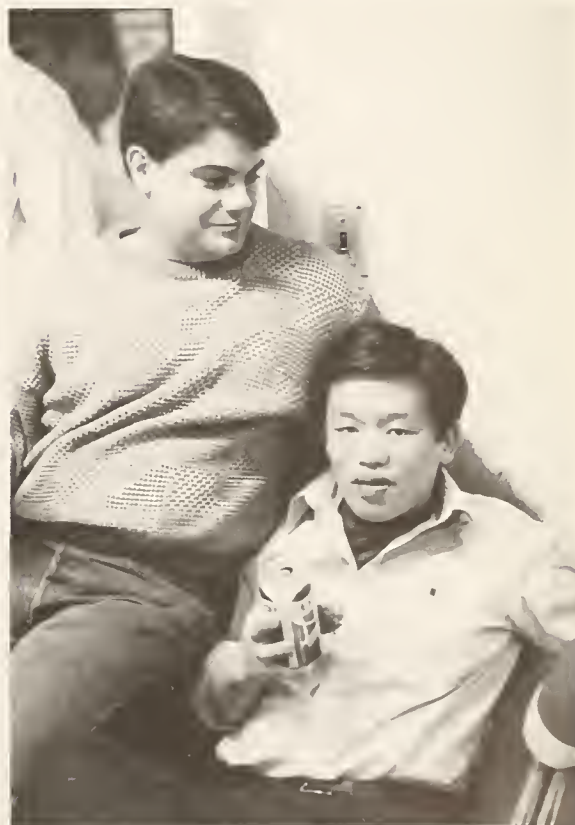

And now for a little Jamaican Two Step.

Why do they always run away when I go to the bathroom.

Burn, Baby, Burn!!

Let's go steady.

The Misfits.

The Guzzler, The Stud, and Mr. Goofy.

Been drinking all night again, uh!

.... the things I do for an "A" (sigh).

I really look like I know what I'm doing, don't you think?

Where is my 100th patient for the day?

O.K. Marie, you can come out now, the coast is clear.

Believe me, this comes in handy!

While you're at it, can you approve a round house? I need the fixed!!?

This one's for Jeff.

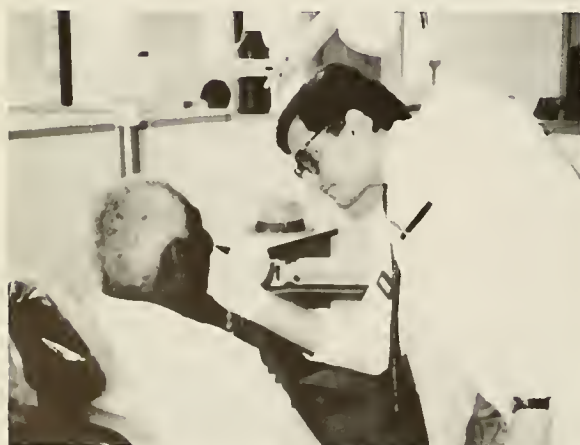

Beam me up Scotty, no sign of perio down here.

Man, she had this body!! I'm in love, dude!

I know she'll be here, I called her last night.

Definitely a multiunit bridge and I'm not just saying that because I need fixed.

I'm Frank Depinhead No, Depinhole . . . No, Depin oh, never mind!

AE, SHOULDN'T YOU HAVE DEVELOPED THEM BEFORE MOUNTING THEM

4 HANDED DENTISTRY

I HAVE AUTHORITY. I'VE BEEN HERE LONGER THAN D. CAIN.

DON'T CALL US, WE'LL CALL YOU.

MY PATIENT DISAPPOINTED

THROUGH THE YEARS . . .

Go for coverup - the cut throats are on the loose

Quick, somebody turn off the electricity

Synchronized drinking

I don't get mad, I get even!

Rich, let's blow this joint and pick up some sweet young things

Caught in the scene of crime

Profit? Where did I go wrong

But doctor, since when doesn't a TPS include a rectal exam

No, this is not a ham sandwich

YOU THINK IT'S EASY. GO AHEAD YOU DO IT!

I'M IN TROUBLE!

PROSTHO IS SERIOUS BUSINESS.

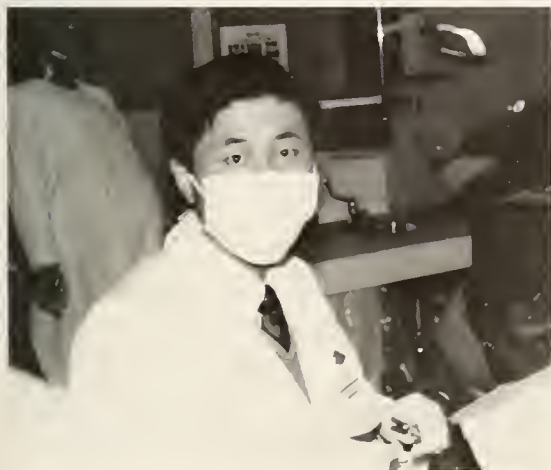

HI THERE, I'M DR. KNOW-IT-ALL.

I'M THE ORIGINAL HAPPY FACE.

WHAT'S HAPPENING TO MY FACE?

WHO? ME? WHAT? WHERE?

SMILE, YOU'RE ON CANDID CAMERA.

Time to make the dentures.

I am already booked for Friday night, but I have an opening July 3rd, 1989.

Too much radiation.

Jila, I have better legs.

What? Are you talking to me? Are you nuts? Don't you know who I am?

Damn, I'm good.

This is the last time you'll cancel on me.

Now which of these instruments of torture should I use?

Finally, something I can reach!

The Shotgun technique

We all love to boogy

Darling, you look mahvelous

Henry, get off my toes.

AND WHATEVER WE DID, WE DID IT WITH DIGNITY

Our special thanks to all our contributors. Your help has made this yearbook possible.

and
Ruthy*

TO MY ONE AND ONLY

Seventeen years ago, I turned around and beheld the most beautiful girl in the world.

She sat there in the warm light of morning sunshine through stained glass windows and I knew then that I had to meet her. After mass on that memorable Sunday morning, I managed the courage to say hello and awkwardly offered to walk her home. I realized then that this was the girl of my dreams, the woman of my future.

Two years later on the first anniversary of our "going steady" I gave her a little gold bracelet. Inscribed on that bracelet were the words of a sincere young man who knew he had found that elusive treasure of unconditional love.

Soon we will celebrate our eleventh wedding anniversary. As I sit here today, relishing in the pride and admiration of her success and graduation from Columbia, I am holding that little bracelet and reading that same inscription of years past.

Today I am filled with the happiness of knowing that those innocent words, conceived many years ago, mean even more today than they did back then. And so, today more than ever, I simply say

Niurka,
My Life,
My Love,
My Happiness,
Tony

C O N G R A T U L A T I O N S

PER ARDUA AD ASTRA (*Through The*
Difficulties To The Heights)

*"The reward of humility and the fear of the Lord, are the riches, honor and life"
Congratulations and God's Blessings*

*Your Friend,
Carol.*

To Ingrid

In honor of your graduation. We're so very proud of your achievements. Congratulations and best wishes.

*Love,
Ophneal and Yvonne Foster.*

To Ingrid

With great pride and love I congratulate you as you embark on your new and chosen career.

Rosalie Pearman.

***I WOULD LIKE TO EXTEND MY SINCEREST THANKS AND
HEARTFELT APPRECIATION***

To my DEAR FAMILY and FAITHFUL FRIENDS for your neverending love and support. Thank you for standing by me and believing in me - You're made this all possible.

Mom, Sanjan, Trevor, Monet, Danielle, Yvonne, Angela, Brenda, Elaine and Carol - Congratulate Yourselves, YOU share this DEGREE.

To all my Professors and the SDOS Supporting Staff. Thank you for your guidance, patience and instruction. You have truly been instrumental in molding my career. Special thanks to Drs. Bacharach, Battle, Brzustowicz, Jackson, Klyvert, Lepowsky, Phillips and Thompson for caring about the person in addition to the student. Thank you for going that extra mile!

Most of all - Dear God, thank you for giving me the strength, courage and endurance to dream, pursue and accomplish . . .

To the Class of 1989 - My friends and colleagues

Congratulations on Your Achievement. I wish each of you longevity, good health and much success.

Ingrid A. Dowrich

Congratulations
LIZ MORENO

*upon graduating Dental School.
We wish you all the best,*

Mom, Dad, and David

To my wonderful parents
Dr. and Mrs. David Moreno

*for all your love and support
during these years.*

Love always, Liz

*Dear Steven,
Mazel Tov*

*Mom & Dad
Bashey & Richie
Arlene & Zui
Babie Rosie
Ayelet, Sara & Ilana*

Congratulations Brian,

and all the best,

from all of us!!!

THE POLLARDS

THE LONG AND WINDING ROAD

that has marked my dental education has finally come to an end, and it is at this time that I would like to express my heartfelt gratitude . . .

To my Dad: Through good times and bad, you've always managed to maintain your dignity and style- a style all your own. Dad- you've always been somewhat of a role model for me, and I want you to know that I was, am, and always will be proud of you and your accomplishments.

To my MOM: Thank you for your closeness, selflessness, morality, and your ability to listen to even the most trivial of problems with a caring and thoughtful ear. Your beauty is transcended only by your warmth and intelligence. Is it any wonder that "I want a girl just like the girl that married dear old dad?"

To Lisa: My "baby sister," whom I've never fully given credit for her beauty, intelligence, and compassion . . . and for whom I now put all this in writing so that it can forever be thrown in my face.

To Ron and Steve: Although separated by miles and lifestyles, you've been more like brothers than uncles, and have provided me with a sounding board to air my problems and frustrations. Thanks for the strong shoulders.

To Evan: Through all the ups and downs of the past 10 years, a better friend would be hard to find. Thanks, buddy, for the yuks and the bucks!

To my instructors- Dr. Phillips, Dr. Torrese, Dr. Bacharach, Dr. Lichtenthal, and Dr. Lepowsky, among others: For shaping me professionally, and for caring about me personally. For all you do, you have my greatest respect and appreciation. To my fellow classmates, who I've harassed, annoyed, put-on, and partied with: Thank you for allowing me to learn from, as well as with you. To Joanie, Fizzo and Al "Buddy" Ho for being "the first" To Joanie, for being a dear friend both in and out of the classroom To Tony, for the new brakes, rebuilt starter, long-distance tow, and "Houlihan's Nights" To Frankie, for bringing some Portuguese "nice-guy" style to Washington Heights, and for his "tight a — " discoveries To Alison (Anis), for those "relaxing" Friday evening drives down Parsons Blvd To John, for being the quintessential class president, and a genuine "good guy" To Matt, for a Partridge Family Christmas, K-tel tunes, White Castle tastes, and calm under fire To Rich and Glen, for their classic style and "sexual comic relief" To Henry, for the "Scooter" name-tag and the Friday serenades on the Cross Bronx Expressway To "Wiz" and "Dre" for their "semi-stability" and "funsense" day in and day out, and those weekend outings that never seemed to be To Ingrid for her spunk, her funk, and her understanding ear To Jila, for hosting those wild pre-Christmas "song and dance" parties To "Oz," for his calming influence amidst the chaos, and his common sense at Coogan's To Erol, for his good humor, and his continued desire to speak to us although among the "orthodontic elite" and to Lillian and Jola, for reminding us, in their "family way," that there's more to life than dental school.

Last, but certainly not least, my deepest gratitude to my Grandmother: There isn't anyone in this world that I have more love, respect, and admiration for. It is safe to say that I would not be a dentist today if not for your faith, wisdom, and generosity. Your legacy is my future, and what you've instilled in me will never be forgotten.

Thanks to all of you, as well as to those many friends, relatives, and mentors who have touched my life, for helping me to realize my potential as a health professional, and more importantly, as a person.

Scott F. Bernstein, D.D.S.

Congratulations to our Son
DR. ANDRE GROSSER

It has been a long and difficult four years. Your accomplishment has made us very proud. All our love and best wishes!!!

Mom & Dad

To Mom, Tino, Connie, Fernando, Nita and Veronica,

Thank you so much for all the help and support you have given me during the past four years. Without you, this degree would not have been possible; this is not my degree, it is OUR degree!!!

I Love You All Very Much.
FRANK

What's the perfect location for you?

"Healthco helped me make a better decision."

"Not being a follower, I wanted to practice a thousand miles from where I went to dental school. Healthco's sales rep contacted me, and I gave them my guidelines. They did their homework and found a perfect location for a general practice.

"Healthco painted a complete, balanced picture for me, comparing my various options and showing a sincere interest in placing me

in an area where I would be welcome and where I could grow."

You can be one of the many successful new practitioners who are being helped by Healthco. Once we help you locate, we work with you in planning and designing your office, selecting your equipment and financing it at simple fixed interest rates, and showing you how to buy your supplies economically.

DEPENDABLE PRODUCTS

Dependable Products. It's a simple concept, but one that has guided our family business since its inception in 1913. Three generations later we still have an excellent reputation among dental practitioners, because PREMIER PRODUCTS do what they say they do. They are dependable.

And more importantly, the PREMIER Company is dependable. You can rest assured that we will be here after you buy a PREMIER product to guide you with helpful techniques and timesaving procedures. And, of course, every PREMIER product comes with our satisfaction guaranteed stamp of approval.

You have enough to worry about in your practice aside from whether a product will work once you place it in the mouth. So rest assured and use PREMIER PRODUCTS.

Send for your FREE PREMIER/ESPE-Premier catalog and ask about the BONUS for new dentists.

Keeping you first in dentistry.

Although undeniably beautiful—with your choice of four upholstery packages—the A-dec Priority chair is essentially a precision machine. It's designed for convenience and easy operation. And it's built to work and last a career. Here's just a sample of how Priority goes to work for you and your practice:

1. All the pivot points have permanently lubricated, long-life bearings that will last the life of the chair.

2. All exposed metal surfaces are stainless steel. They're

extremely durable, resist scratching and chipping and will not rust or corrode.

3. Armrests are built for long life. A 3/4-inch steel rod slides through a permanently lubricated Teflon® bearing, ensuring a strong, safe support for your patients.

4. Priority is quiet. And in this case, quiet means absolute quality!

5. Priority requires no periodic maintenance!

Of course, there's much more to Priority. However, space here is limited. For the full story, just ask for your complimentary Priority brochure. Simply return the response card in this magazine or see your full-service, authorized A-dec dealer. You'll soon discover the many ways that beauty has been designed to go to work for you!
